

Evolis Zenius, Primacy and Quantum card printers are delivered with **cardPresso** software, the ultimate tool for professional card design. cardPresso is a user friendly card designer software that provides the best options and capabilities for the creation of all types of badges.

Available in 6 editions, cardPresso is the ideal product for any card issuance project, whatever your organization.

## CARDPRESSO CARD DESIGNER SOFTWARE / MORE THAN AN APPLICATION

### USER-FRIENDLY SOFTWARE

cardPresso is designed to make card production easy. Graphic design and personalization tools are built in. Magnetic, contact and contactless chip encoding are available. Its user-friendly interface allows anyone to use the software without much training.

### ADVANCED FEATURES

cardPresso offers 6 editions in 18 languages. cardPresso works with large databases including MS Access, MS SQL, MySQL and Oracle: Native support for XLS, XLSX, CSV and TXT are also included. Continuous development guarantees an application with the most up-to-date card technologies. Minor version updates are available at no charge. Upgrades to advanced editions are available online at any time.

### FULL SUPPORT

Numerous online tutorials, videos and FAQs are available. cardPresso also provides free and responsive technical support. All the cardPresso editions have been tested with Zenius, Primacy and Quantum card printers and encoders, thus ensuring a perfect compatibility between your hardware and software equipment.

Start by **XXS Lite** with the basic features for card design and printing using predefined templates, signature acquisition, internal database up to 50 records, barcodes 1D, WIA/TWAIN and DirectShow acquisition as well as magnetic encoding.

**XXS** adds an internal database with unlimited records.

**XS** adds QR codes, .XLS, .XLSX, .CSV and .TXT database connection, database view and link image to DB field.

**XM** adds local MS access connection, photo on database, FaceCrop tool for face recognition and 2D barcodes.

**XL** adds ODBC connection, RFID contactless direct encoding and smartcard plugin, multi-layout card designs, conditional printing, operation logs and much more!

**XXL** adds advanced features like DESFire, Web Print Server and Net License up to 16 PCs.

**cardPresso minimum system requirements:**  
 Microsoft® Windows® XP with Service Pack 3, Windows® Vista (32-bit or 64-bit), Windows® 7 (32-bit or 64-bit), Windows® 8 (32-bit or 64-bit), Mac OS X (Intel® processor only) - Intel® Pentium® 800MHz processor - 512MB of RAM - 500MB hard disk free space - 1024x768 monitor resolution - 1 USB port

## FEATURES
